Durst at Label Expo '14: Tau 330 UV Inkjet Digital Label Press
New: High-Definition Print Mode
Integrated Laser Finishing System
Tau Low-Migration / Low-Odor UV Digital Inks

Durst, the leader in inkjet innovation for industrial imaging applications, will conduct a press conference during Label Expo '14, next week at the Donald E. Stephens Convention Center in Rosemont, Ill., to present information on the new advances and capabilities of its Tau 330 UV Inkjet Digital Label Press, a leading industrial imager for digital labels and specialty packaging.

The press conference also will cover Durst's unique low-migration / low-odor inks, developed specifically for the industrial label, primary food packaging and pharmaceutical segments, but an optimal choice for any application requiring higher-quality, sharper, more precise imaging.

Time / Date: 10:15-11:15 a.m. Wednesday, Sept. 10

Location: Press Conference Room (#13), Donald E. Stephens Convention Center

Speakers: Helmuth Munter, Durst's Worldwide Product Manager for Tau
Christopher Howard, Vice President, U.S. Industrial Segment Business

NOTE: Durst will participate in the Label Expo Inkjet Trail, featuring live demos of the Tau 330.

If you have any questions, or if you would like to speak with a Durst representative at the show, please contact Bruce Hyland via the phone number or e-mail address listed below.
