DURST LIFT ERP

From quote to delivery.

Durst Lift ERP provides a single integrated platform to run every aspect of your print business.

The process is automated and streamlined, from taking a customer's order online, into preflight and manufacturing,

and all the way through to customer delivery. A flexible workflow management system, designed to meet all your needs. Don't force your processes to conform to the software: Lift ERP speaks your language.

Stay connected

Real-time visibility, and robust alerting and notifications keep your finger on the pulse of your business, no matter where you are in the world.

Eliminate error-prone paper-based processes

Streamline your workflow and eliminate physical job folders and job tickets by using mobile devices to process work from any machine or workstation.

Tailor it to your business

Lift ERP is a fully configurable and scalable software suite comprised of easy-to-use modules geared toward keeping your print shop running lean, efficient, and promoting your bottom-line.

Streamline your production

Optimize production, sort and group activities, analyze estimated and actual projections, review scheduling availability at estimating and at order entry.

Improve your customers' experience

Win more business from new and existing clients by making it incredibly easy to place, approve, and track orders from anywhere in the world.

Simplify your IT structure

With Lift ERP, all your technology is securely managed in the cloud. Every module you need to run your business is available in a single system.

Increase your productivity

Reduce hours of manual data entry using Lift ERP's powerful tools and automation with intelligent rule-based estimating, order entry, job routing, purchasing, and invoicing.

Bring visibility and control to a new level

Powerful dashboards deliver the most critical business information directly to each user's customized home screen.
